

STRONG WITH STROHM!

NO STRINGS. NO EXCUSES. JUST CONSERVATIVE LEADERSHIP.

Angela Strohm is different: While other candidates take lobbyist money and end up compromised, Angela is one of the very few who refuses—because that’s how conservative values get traded away time and again.

It’s why, even though Oklahoma is the reddest state in the nation, **Oklahoma’s state government has reached record highs in spending even as it has hit record lows in performance.**

That’s because candidates say they are conservative on election day, but are anything but on the day after.

A longtime Republican leader, Christian, wife of 26 years, mother of four, grandmother to two and former teacher, she stands

unapologetically for life, the Second Amendment, medical freedom, property rights **with a strong focus on reducing property taxation**, and an accountable, much-smaller state government.

Angela Strohm answers only to the voters of House District 69—not special interests. And this makes all of the difference. When they call, she will owe them nothing, because, unlike just about every other office holder, she is an exception. **She will never take their money.**

On June 16, make your voice heard and elect a conservative who, unlike so many others, will actually stay true to our values and hold the line: **Elect Angela Strohm.**

REPUBLICAN
**ANGELA
STROHM**
★
VOTE JUNE 16TH!

PUT AMERICA FIRST—IN EVERY POLICY

We must stand strong against the Islamic invasion and the ever-spreading mosques; stop the illegal alien invaders of our nation; oppose the barbarism of woke ideology in our schools; defend the unborn; and stand firm for free speech, property owners' rights, and the Second Amendment.

Angela strongly believes in food freedom, patient rights, and Make America Healthy Again—promoting natural healing, small family farms, direct-to-market, and pesticide-free produce, while protecting Oklahoma farmland from chemical contamination and keeping our food supply local, healthy, and free from corporate tampering. Angela supports the Save Oklahoma Plan and ending the government-subsidized, green energy invasion of our state.

DOGE GOVERNMENT SPENDING AND END PORK EARMARKS

State audits show millions in waste and abuse, yet they are put on the shelf and ignored by big-spending politicians who spend millions more in corrupt, pork

earmarks and corporate welfare giveaways. These must stop.

LOWER PROPERTY TAXES

Property taxes are legalized government rent—even after you've paid off your land. They are punishing the people. We must use every penny saved through DOGE and ending pork earmarks to slash property taxes and give power back to the people—not the bureaucrats.

NO LOBBYIST MONEY

Lobbyist cash turns conservatives into big-government liberals. That's why so many "Election Season Republicans" talk conservative to get elected—but vote against our values once they're in office. We must insist that our elected officials turn down this money just as every other professional is expected to abstain from taking from those over whom they hold decision-making power. Angela will set the example by refusing the many thousands that are customarily given to office holders.
